

Refugees

*dark skin, dark hair, dark life, dark end
run from terror, ran to terror
lost in this world, lost in self exile
for better life for better life*

*living underground, when denied your right
victim of discrimination, victim of unfairness
victim of dictators, victim of fundamentalist
for justice for justice*

*as a humane or otherwise
in a country that folks
love or care more
for cats and dogs for cats and dogs*

*united nation, humane rights
instruments in hand
for pressure, for support, for advantage, for bargain
for black gold for black gold*

*humiliation is the price
not for substantial life
frustrated and exhausted
for gradual death for gradual death*
